

PRECISION

The perfect fit for
all **specialist precision**
engineering requirements.

“WE ARE PERFECTIONISTS. IT'S AT THE HEART AND SOUL OF EVERYTHING WE DO.” - CARLOS BROENS.

PRECISION

With international support offices throughout the USA, Europe and Asia, Broens Precision provides a strong local service with true global capability in sales, service and technical support.

By staying one step ahead of technology and processes, we have gained a formidable reputation in a wide range of specialist areas, including electronics, industrial engineering, automotive, marine and scientific research applications.

Using the latest technology in our state-of-the-art manufacturing plant, we can deliver efficient, high-end processes to your specifications in the following areas:

Component Machining

- Design and development
- Sophisticated manufacturing processes including CNC multi-axis machining, wire cutting, waterjet cutting, grinding and complete inspection facility
- One-off or high volume production

Assembly Manufacturing

- Dedicated assembly facility
- Advanced processes
- Elite team of specialist technicians

Broens Precision - a world leader.

Broens Precision has a proud heritage not only in Australia, but around the world. From our earliest toolmaking and manufacturing days to the present, we have been at the forefront of the industry - constantly adapting, innovating and questioning in order to be the best.

Press Metal Tooling

- Design and development utilising the latest design programs
- Dedicated project management and support
- Advanced manufacture - latest in machining technology and advanced tooling processes
- Try out/buy off and checking fixtures
- All work done under strict ISO 9001:2000 Quality Accredited

Metal Stamping

- Full production facility - 12,000sqm manufacturing facility including dedicated component production area
- Pressing capacity - up to 700t, mechanical and hydraulic press range
- Automatic off coil feed system
- Responsive and flexible service

"A large part of our global recognition has come from Broens Precision. We worked extremely hard over the years to establish this reputation. Broens Precision remains an essential part of our quest for perfection.

We will never rest on our laurels, and are always looking for more ways to innovate, which ultimately benefits us and our clients." - Carlos Broens.
